

Motivation Letter

Date: September 4, 2026

Dear Sir or Madam,

I would like to clarify the purpose of my visit to the United Kingdom and my strong reasons for returning to Georgia after the trip.

I will be travelling to the United Kingdom with my child, who has been invited to attend an awards ceremony for an essay competition. I will accompany my child during this short visit and provide the necessary parental support. Our visit is solely for the purpose of attending the ceremony, after which we will return to Georgia.

I have a stable life and significant family and professional commitments in Georgia. My husband and my three children live in Georgia, and my family is the most important part of my life. I have no intention of leaving my family or remaining in the United Kingdom.

In addition to my family responsibilities, I work as a makeup artist and have ongoing professional duties and appointments in Georgia. I have clients and scheduled work that require me to return after our trip. My professional activities are established in Georgia, and I have every intention of continuing my work upon my return.

My husband will be sponsoring our trip and has a stable and significant income in Georgia, allowing us to comfortably cover all expenses associated with our visit. We have an established home, family, professional commitments, and financial interests in Georgia, all of which reinforce my intention to return.

I therefore respectfully confirm that my visit to the United Kingdom is strictly temporary. I will return to Georgia with my child after the awards ceremony to reunite with my husband and my other children and to resume my professional responsibilities.

Thank you for taking the time to consider my circumstances and for reviewing my application.

Sincerely,
Natia Kiknadze
